

MASSACHUSETTS SCHOOL
ADMINISTRATORS' ASSOCIATION

2021-22 Mentoring Program

Has there ever been a better time to invest in a Mentor for your new Administrators? We can help.

From one of our recent mentees;

"My Mentor has provided advice with difficult situations, helped me map out a timeline of important events, and served as a sounding board for new ideas and communication strategies aimed at benefiting teaching and learning in my school community. He is a combination of a coach, counselor, friend, and teacher all wrapped into one. I would highly recommend a Mentor for all Principals, but especially those at the beginning of their career."

Your MSAA Mentor Program will:

- Provide trained Mentors.
- Work with Central Administration in support of goals and objectives.
- Provide Entry Plan assistance starting July 1, or earlier.
- Emphasize the importance of equity and inclusion in all educational decisions.
- Support CH. 35.04: Standards and Indicators of Effective Administrative Leadership Practice.
- Develop a confidential relationship that supports mentee leadership growth.
- Submit an end of year report on all meeting dates and educational topics discussed.
- Our 2021-22 programming content will be further enhanced by an ongoing partnership with DESE in the development of an Induction & Mentoring Handbook for school leaders.

We believe our cost of \$2500. for monthly (July – June) on site meetings and unlimited access via Zoom, email and cell is both cost efficient and overwhelmingly productive for your new administrator.
